

**PEDRO RODRIGO MARTIN**  
DELEGADO ELA-ERTZAINTZA

13 de octubre de 2016

**Angels Bosch**  
Presidenta  
EuroCOP

Estimada Presidenta:

El sindicato ELA Ertzaintza quiere hacer una contribución a los siguientes documentos de posición:

**REGULACION DEL SECTOR DE LA SEGURIDAD PRIVADA**

Necesitamos saber el número de efectivos y compañías de seguridad privada que ha autorizado cada estado miembro. Asimismo el número de agentes de policía que prestan servicio en cada uno de ellos.

De este modo se puede argumentar si su número es excesivo en comparación con la de los agentes de policía en cada país.

Estos datos son esenciales para denunciar el incremento de la privatización de todos aquellos servicios públicos que generan beneficios para las empresas y sus inversores privados, en este caso la seguridad pública, en detrimento de los servicios públicos.

**LA VIOLENCIA CONTRA LOS AGENTES DE POLICIA**

Los Estados no se hacen cargo en todos los casos de las indemnizaciones que los Tribunales de Justicia determinan en su favor, cuando el autor del delito se declara insolvente, y ha de iniciar un largo procedimiento judicial de Responsabilidad Patrimonial de la Administración. Esta situación no es justa para el agente de Policía.

A continuación exponemos nuestras enmiendas.

Atentamente

Dear Ms President:

The union ELA Ertzaintza wants to make a contribution to the following position papers:

**REGULATION OF THE PRIVATE SECURITY SECTOR**

It is necessary to know the number of troops and private security companies each member state has authorized, and also the number of police officers serving in each of them.

By doing so we can compare the troops and police officers in our country against the number of them in each of the other ones.

These data are essential to report the increasing privatization of all public services that generate benefits for businesses and private investors, in this case public safety, to the detriment of public services.

**VIOLENCE AGAINST POLICE OFFICERS**

States can not take charge in all cases of compensation determined by the courts in their favor, when the offender is insolvent, and must initiate a long judicial procedure Patrimonial Responsibility Administration. This situation is not just for the police officer.

Then we expose our amendments.

Kind regards

## AMENDMENTS

EuroCOP Position Paper: Private Security

Amendment from ELA-Ertzaintza, Basque Country:

1. Page two ==> Private security providers are private companies driven by economic interest. They must not be put into a role where their legitimate interest of achieving economic profits may conflict with the public interest. **“It is necessary to know the number of troops and private security companies each member state has authorized, and also the number of police officers serving in each of them.”**

EuroCOP Position Paper: Violence Against Police Officers

Amendment from ELA-Ertzaintza, Basque Country:

1. Page two ==> EuroCOP calls for compensation... return to work, and not suffer financial hardship though injury. **“The state has to take care of the compensation determined by the courts in cases of insolvency of the offender.”**
